Number of Visitors	2015: 169,118 visitors 2014: 161,647 visitors
<b>Eco-Products 2016</b>	Duration: December 8 (Th.) – 10 (Sa.), 2016 Venue: Tokyo Big Sight, East Hall
Brief Description	<p>This is a specialized exhibition featuring “<i>environmental technologies and environmentally-friendly products and services. It is known as one of the largest scale exhibitions in Japan in terms of exhibition space and the number of visitors.</i>” “<i>More than 700 companies and organizations showcase the cutting-edge technologies and solutions to contribute to a sustainable society.</i>” <a href="http://eco-pro.com/2015/english.html">http://eco-pro.com/2015/english.html</a></p>
Observation	<p>The event can be an ideal venue for networking with and learning from Japanese exhibitors (companies / governments / universities / NGOs). However, selection of exhibitors in the fields of eco-products / eco-solutions / environmental &amp; energy technology can be challenging.</p>
