How to Make the Origami Flower
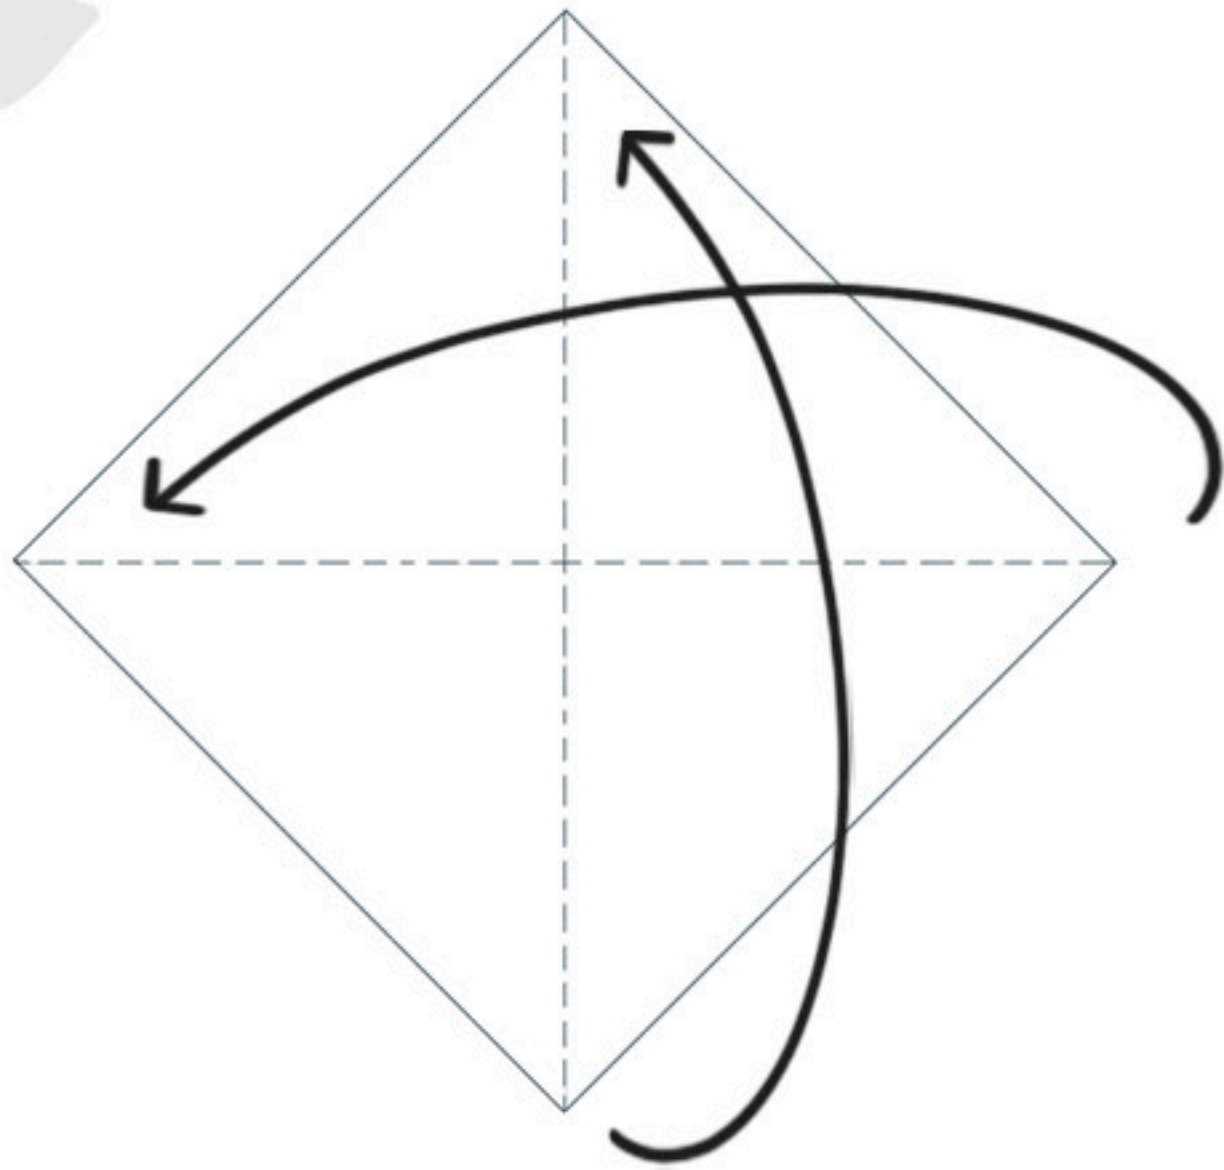

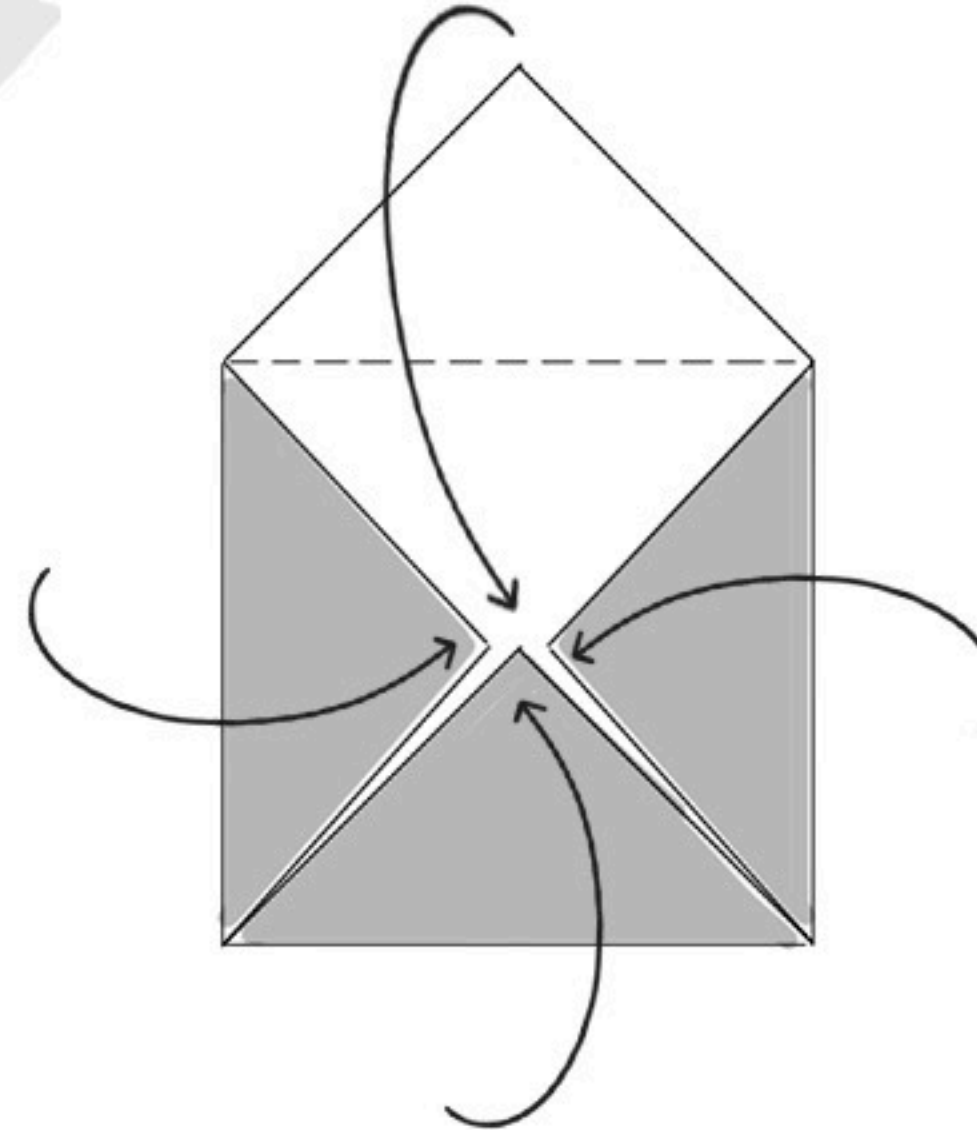

**1.**

Turn the pattern inside out and fold diagonally.
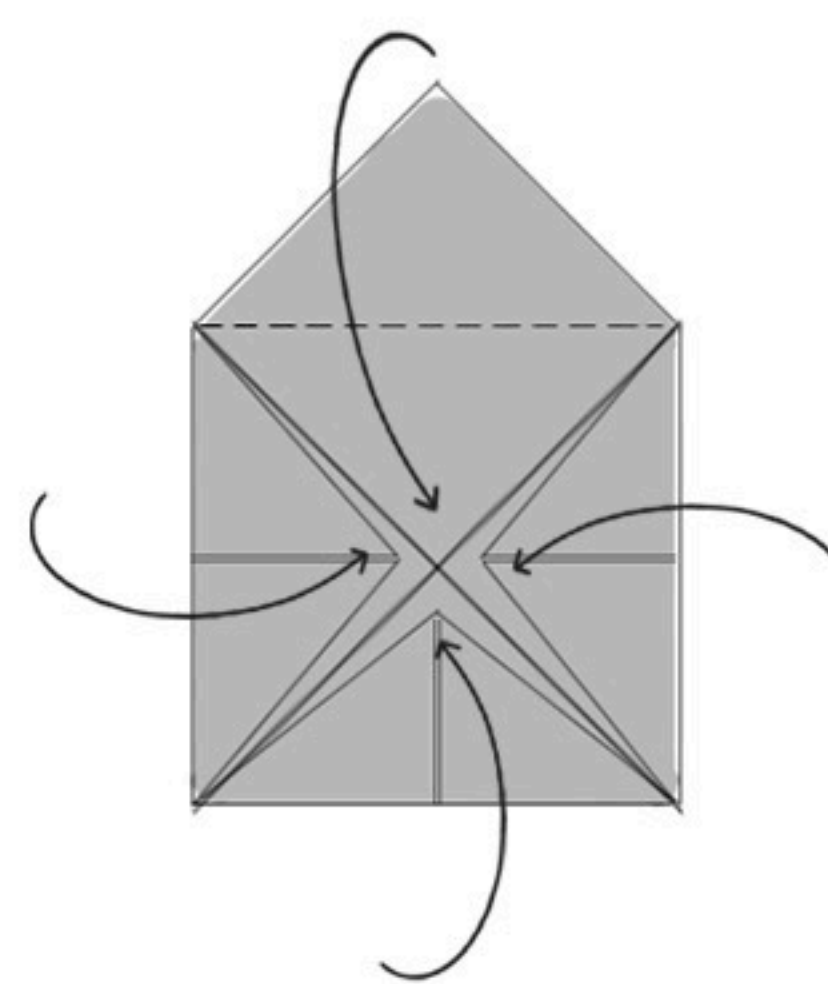

2.

Fold the corners toward the center. (4 places)

3.

Turn over and fold the corners toward the center. (4 places)

4.

Turn over further and fold the corners toward the center. (4 places)

5.

Fold each corner inward one-third. (4 places)

6.

Hold!

While pressing down and holding the folded corner with (5), pull the edge of the paper around from the back side. Be careful not to tear the paper.

7.

Fold the center four corners outward to create the center of the flower.

And You're done!
